Minnesota. I think I can find what we need on your site. I was just making sure I wasn't missing anything. Thanks.

Hi Jim.

All the info we have available for the public is on the website. Your state may have info too – which state are you in?

Best,

Jose

Subject: Fact sheets for schools

Our school district is considering the addition of 10 synthetic turf fields. The materials on your website are impressive. Would you have a fact sheet/summary type document that outlines the potential health impacts of these fields? We are looking for resources and this looks you have the best out there. Thanks for any help you can provide.
